Nata da una riflessione condotta da Jean Nouvel relativamente alla relazione tra arredo e spazio architettonico, la serie Elementaire propone differenti sedute e divani dalla geometria semplificata e adattabili a diverse scale di progetto.

Il sistema comprende diversi elementi modulari, componibili in una sequenza lineare, ai quali si aggiungono il divano a due posti e due tipologie di poltrone.

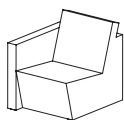

Tutti i componenti, disponibili in due varianti di pelle, possono avere schienale basso o alto. Alla struttura lignea sono ancorati i pannelli in multistrato accoppiati a poliuretano sagomato, che garantiscono un elevato comfort di seduta. Il rivestimento esterno in pelle è caratterizzato dall'assenza di cuciture visibili.

Le poltroncine possono essere su piedini, come i divani, oppure su ruote. Tutti gli elementi della serie sono disponibili, su richiesta, in versione ignifuga.
