The carefully designed colour scheme and new constructive details of LessLess Color permit the creation of workspaces where the tables, desks, and containers are combined with a high degree of compositional and chromatic freedom.

The tables and desks of this family of furnishings feature an exclusive worktop with a linoleum insert in the same colour as the aluminium frame. The tables are also available with a cable management system consisting of cable hatches, cable trays below the top, and legs that double as cable risers.

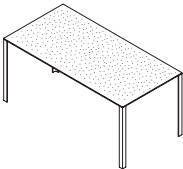

The LessLess Color series is available in a range of eight colours, complete with metal drawer pedestals and document storage cabinets with doors, in various heights.
