Release Date
2025

The name of this series of clean-lined metal containers refers to its unique capacity for adaptability and flexibility. Its simple, monolithic forms combine easily with all of the other UniFor furnishings to meet the requirements of the office environment.

Cabinets

The Neutra cabinets, in powder-coated sheet metal, are available with doors or in the open version, and in various heights. The steel shelves are supplied separately.

Steel brackets inserted in the lateral panels on either side of the cabinets permits them to be installed at 25 mm increments. The doors, also in bent sheet metal, are equipped with a lock with removable core.

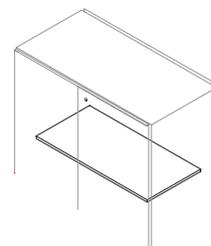

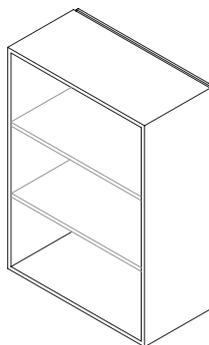

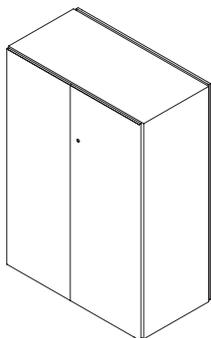

In the case of the double-sided linear compositions, the aesthetics of the cabinets, with the same edge detailing along both the doors and the backs, makes it possible to provide for doors on alternating sides. The cabinets are equipped with height-adjustable feet.

Drawer pedestals

The Neutra series of door pedestals, also in powder-coated sheet metal, are available in various widths and in versions with two, three, or four drawers. The drawers, with fronts in folded sheet metal, are equipped with ball-bearing glides and a lock with removable core.

The drawer pedestals can be transformed into desktop supports by means of superficial holes drilled into their tops. Individual drawer pedestals can double as seating by fixing a special cushion to the top. An anti-tipping mechanism ensures the stability of the larger elements.

The drawer pedestals are supplied with glides, but they can be mounted on castors on request.
