2025

UniFor has always placed the well-being of people in working environments at the centre of its mission. UniArm, the monitor arm designed by Alberto and Francesco Meda, represents the latest achievement of this philosophy.

Frequently adjusting the monitor position helps prevent tension in the back, neck, shoulders, and arms, fostering a healthier and more productive work environment. UniArm allows for easy adjustment of height, depth, and screen angle, enabling users to find the optimal position for maximum comfort during daily activities.

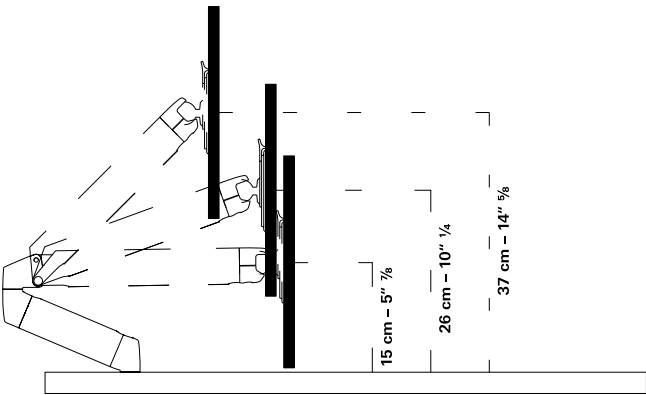

Thanks to its flexibility, the UniArm monitor arm transforms any workstation into a dynamic and organized area. It is possible to easily switch between horizontal and vertical screen orientations, share the display with colleagues, and find the ideal angle for any task.

UniArm combines sophisticated design and cutting-edge technology to enhance every office, making it more efficient and personalized. With its multiple configurations, supporting also multi-screen setups, it fits perfectly into high-complexity work environments such as the hectic trading floors of the financial sector or the advanced control rooms of airports and railway networks.

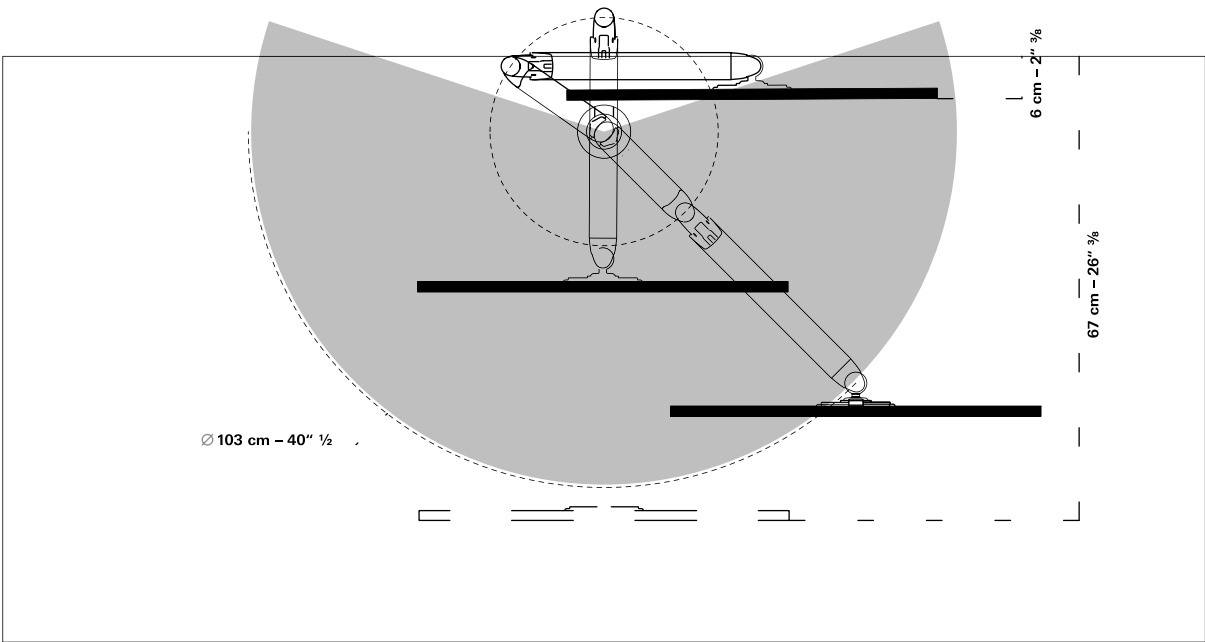

UniFor continues to innovate, prioritizing not only the well-being of people but also sustainability. UniArm is designed for easy disassembly, facilitating recycling at the end of its life. Additionally, by using materials with high recycled content, its overall environmental impact is reduced.

The advanced engineering of the monitor arm's joint system allows UniArm full circular and rotational movement of the components, promoting the achievement of an ideal ergonomic position.

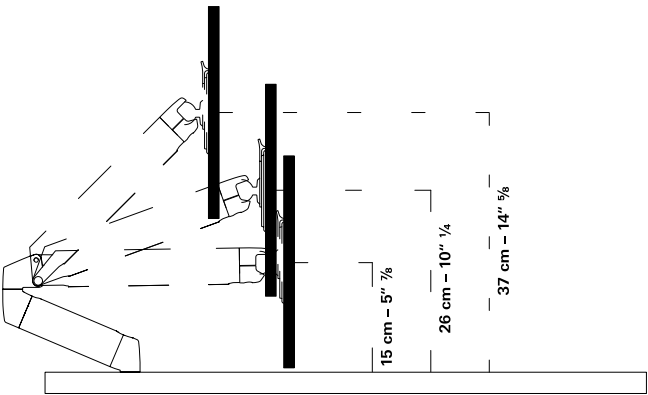

VERTICAL EXTENSION OF THE DYNAMIC MONITOR ARM WITH SINGLE JOINT

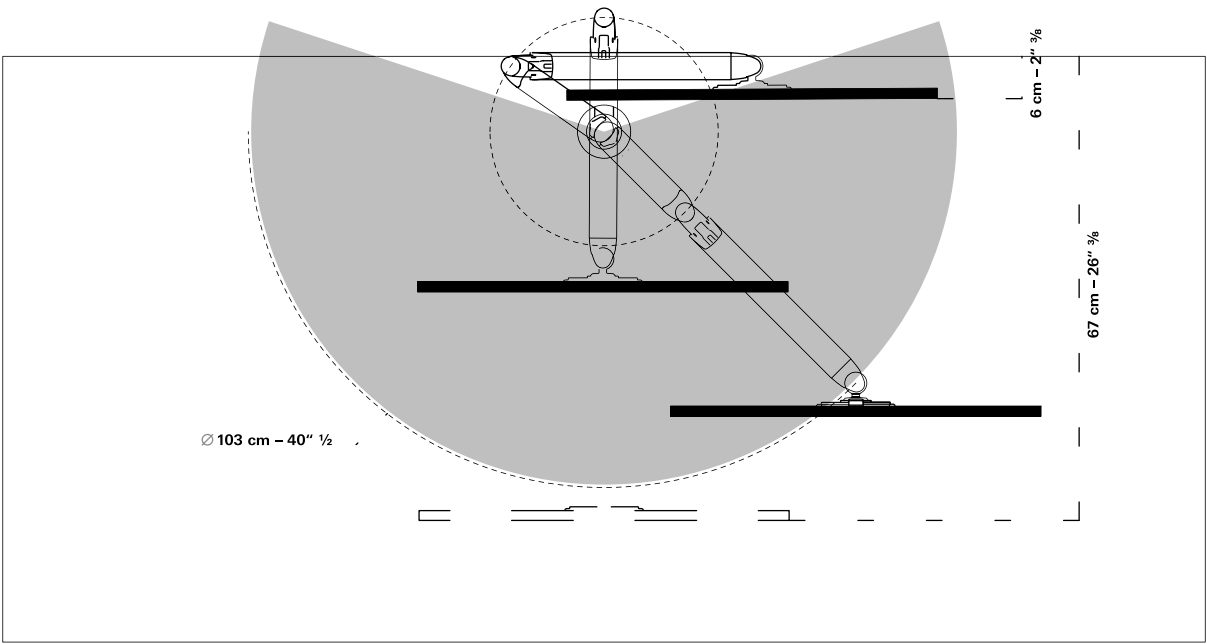

HORIZONTAL EXTENSION OF THE DYNAMIC MONITOR ARM WITH SINGLE JOINT

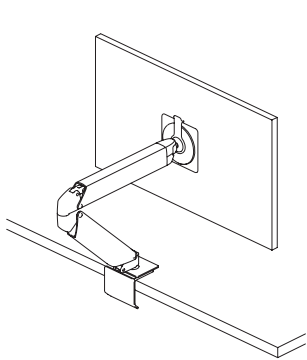

VERTICAL EXTENSION OF THE BASIC MONITOR ARM WITH SINGLE JOINT

HORIZONTAL EXTENSION OF THE BASIC MONITOR ARM WITH SINGLE JOINT

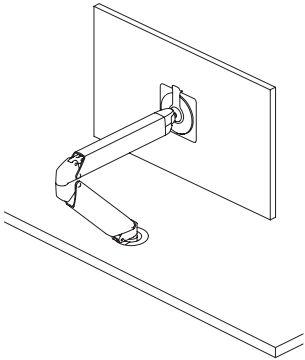

**DYNAMIC  
MONITOR ARM**

**Dynamic monitor arm  
with double-joint  
and clamp connection to the table**

Maximum vertical extention: 55 cm  
Maximum horizontal extention: 134 cm  
Weight: 3,3 kg

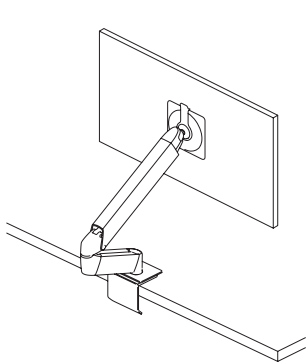

IUAC1D ..

**Dynamic monitor arm  
with double-joint  
and grommet connection to the table**

Maximum vertical extention: 55 cm  
Maximum horizontal extention: 134 cm  
Weight: 3,3 kg

IUAG1D ..

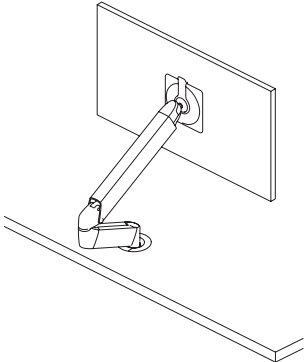

**BASIC  
MONITOR ARM**

**Basic monitor arm with double-joint  
and clamp connection to the table**

Maximum vertical extention: 37 cm  
Maximum horizontal extention: 103 cm  
Weight: 2,7 kg

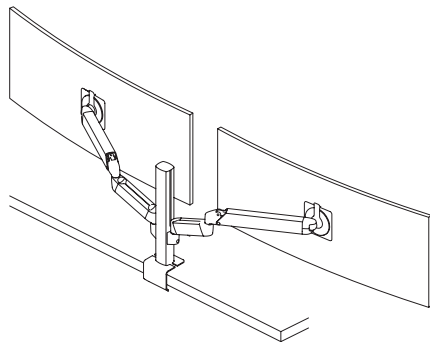

IUAC1S ..

**Basic monitor arm with double-joint  
and grommet connection to the table**

Maximum vertical extention: 37 cm  
Maximum horizontal extention: 103 cm  
Weight: 2,9 kg

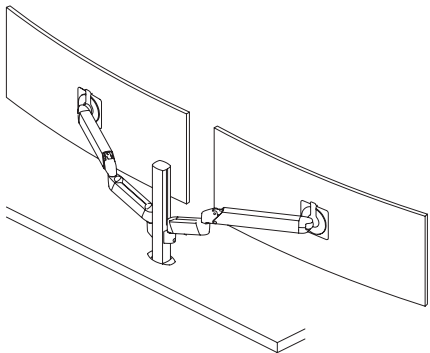

IUAG1S ..

MONITOR ARM  
WITH 2 ARMS

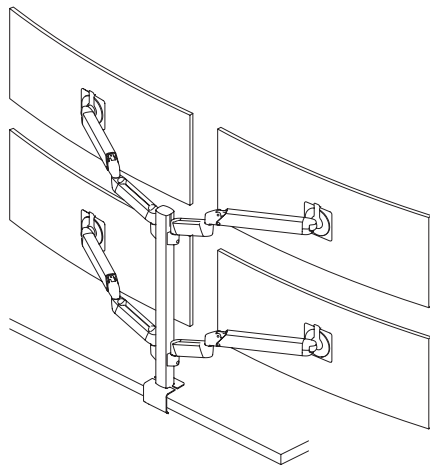

Vertical post (H32 cm) with two monitor  
arms and clamp connection to the table

Peso: 6,2 kg  
IUAC2 ..

Vertical post (H32 cm) with two monitor  
arms and grommet connection to the table

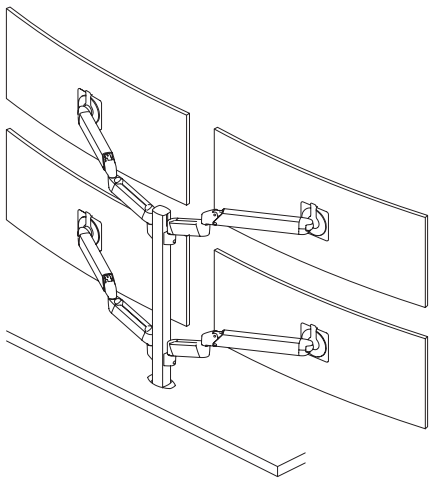

Peso: 6,8 kg  
IUAG2 ..

MONITOR ARM  
WITH 4 ARMS

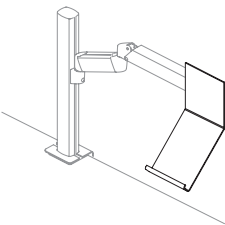

Vertical post (H46 cm) with two monitor  
arms and clamp connection to the table

Peso: 10,3 kg  
IUAC4 ..

Vertical post (H46 cm) with two monitor  
arms and grommet connection to the table

Peso: 10,9 kg  
IUAG4 ..

ACCESSORIES

Notebook holder

IUAPN ..

MONITOR ARM  
STRUCTURE FINISHES

Powder coating

**D7**  
Charcoal painting

**SX**  
Frosted Chrome painting

Galvanic treatment

**BA**  
Polished aluminum

For other finishes,  
please contact our Sales Department.

UniFor adopts management systems for quality, environment, and workplace health and safety, compliant with and certified according to UNI EN ISO 9001, UNI EN ISO 14001, and UNI ISO 45001 standards.

UniFor products are UL GREENGUARD Gold® certified, demonstrating compliance with chemical emissions standards and a commitment to protecting people and the environment, in line with the limits set by the UL GREENGUARD program.

Upon request, UniFor can provide products made with FSC® (FSC-C005654) certified materials. For more information, please contact UniFor at [unifor@unifor.it](mailto:unifor@unifor.it)."
