Technical Data Sheet

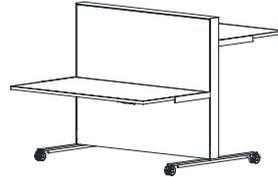

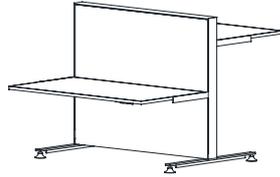

Release Date
2025

Final component of the XYZ office system, by Foster + Partners, the Z desk is the result of a collaborative aim to create a sit/stand desk without electronic actuators or crank handles.

The total absence of power cables and the unique nature of the Z desks allow users to move, combine and organize them freely according to individual uses and work requirements.

The desk is equipped with a custom-engineered spring and cam mechanism, housed within an aluminium frame, that can adjust and maintain the position of the work surface quickly and intuitively with simple manual pulling and pushing movements. The double-sided frame accepts a range of materials, from acoustic fabric to timber veneer.

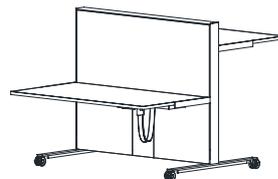

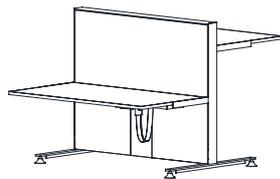

TABLES
WITHOUT ELECTRIFICATION

Z desk workstation with 2 height-adjustable table tops supported by feet

148x175xH124 cm

Z desk workstation with 2 height-adjustable table tops supported by castors
